**LOT 963 - 2013 Bullet SF22 | Hours: 418**

**Lot Location** Millers Marine, Ocala, FL.

### Description

Bullet Boats has introduced the 22SF as their entrance into the saltwater flats boat market. The 22SF, takes the design, detail and fit and finish that Bullet is known for, and brings it to the flats/redfish market. The 22SF is built with the same 100% hand laid, quality craftsmanship as all Bullet boats have been for 32 years.

The 22SF is an even 22 feet in length, with a 96 inch beam. The hull design is adapted from the long proven design of Bullet's 21' 10" bass boat line, that is known for performance in handling rough water, top end speed and fuel economy. The lines and styling of the 22SF bring a new look to this market segment. To sum it up, it is not only a well designed, tough performer, but a head turner as well. Bullet's standard is not to just build an average flats boat, but to build a high quality boat that brings performance, function and style to the flats and redfish tournament angler.
