LOT 815 - 2025 B Wise DT714LP-LE-14 Dump Trailer, VIN: 58CB1DC26SC005257

Description

The DT714LP-LE-14-A is a galvanized low-profile dump trailer measuring 81.5" wide by 14' long and with a 14,000 lb GVWR. It features a 6" channel main frame with formed bed sides and a 76A floor finish for enhanced durability and material containment.

The hitching system includes a 2-5/16" adjustable coupler supported by a 12K drop leg jack for stable operation during loading and unloading. The dumping mechanism utilizes twin telescopic cylinders powered by a deep cycle battery system, with a combo gate that incorporates ramps and D-rings for versatile material handling and equipment loading capabilities.

The trailer rides on a 7K stainless steel tandem axle setup with electric brakes and ST235/80R16E radial tires on 8-lug galvanized wheels. The complete galvanized construction provides superior corrosion resistance and extended service life in demanding work environments.

Quantity: 1
