LOT 820 - 2024 B Wise DT716PLE-16-A Dump Trailer, VIN: 58CB1DD29SC001850

Description

The DT716LP-LE-16-A is a low-profile dump trailer measuring 81.5" wide by 16' long with a 16,000 lb GVWR. The trailer features an 8" channel main frame with formed bed sides for enhanced structural integrity and reliable material containment during transport and dumping operations.

The hitching system includes a 2-5/16" adjustable coupler supported by a 12K drop leg jack for stable positioning during loading and unloading procedures. The dumping mechanism utilizes twin telescopic cylinders powered by a deep cycle battery system, with a combo gate that incorporates ramps and D-rings for versatile material handling and equipment loading capabilities.

The trailer rides on an 8K stainless steel tandem axle setup with electric brakes and ST235/85R16G radial tires on black mod wheels. Additional features include rear stabilizer jacks for enhanced stability during dumping operations, and the trailer comes finished in black for a professional appearance and long-lasting durability.

Quantity: 1
